

Stanwood High School
Registration Q & A
2020-2021 School Year

1. What should I do if I want to take a class that I need to audition for? Go ahead and sign up for the class. We will set up auditions when we go back to school after April 27th. If we don't go back this year, we will set up an alternative plan and notify students who have signed up for the audition only classes.

2. I would like to take two time release periods or two work release periods next year. Is that possible? No students will only be allowed to take one time release or work release class next year.

3. I want to sign up for a class that requires an application. What should I do? Go ahead and sign up for the class. We will either have you fill out the application when we return to school or we will send you the application by mail.

4. I am not sure which level of class I should take for areas like English, Math and Science (example - College Prep English 11 or Advanced Placement Literature). Please send an email to your current teacher to get their advice on what would be the appropriate class for you.

5. I would like to satisfy my pe credit through an alternative means (two sports in a year, a competitive sport outside school, etc.) What should I do? My recommendation is that students should sign up for a pe class through our high school. The state revised the law about waiving pe or using an alternative means to meet the pe requirement. Students will be required to complete a new process, including demonstrating the FITT principles (frequency, intensity, time, and type of exercise).
