

What is a High School & Beyond Plan?

The High School and Beyond Plan is a formal process designed to help students think about their future goals and how to accomplish those goals. This includes exploring interests and career options, developing a course plan for high school, and exploring opportunities to develop skills. Students create their High School and Beyond Plans in cooperation with parents/guardians and school staff. The High School & Beyond Plan is a Graduation Requirement.

Why is the High School and Beyond Plan important?

The High School and Beyond Plan provides students with the opportunity to explore their own skills and interests and discover potential career and educational options they may not have been aware of previously. It allows students to take ownership over their high school experience and choose coursework and activities that are relevant to their goals. The HSBP also provides a means of tracking requirements for graduation and entry into postsecondary programs. The plan will guide a student's choice for the third credit of math, third credit of science, and the development of personalized pathways.

What do I need to do?

The High School & Beyond Plan is developed and mapped in Xello. As a Senior, you must complete the Required Lessons below. As you go through this process, please remember that this is to serve as a plan to assist you in developing your path for life after high school. There are also a series of Optional Lessons or Activities that are listed below that can help you with this process.

How to Log in to Xello

- Go to the Your School's website.
- Click on **For Students**, then click on **Xello Student Login**
- Log In with your School Email Account
