

Yearbook *needs* you!

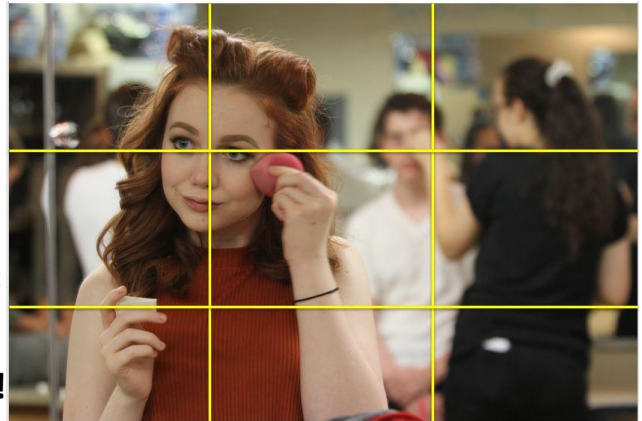

YOU are the photographer for this year, and we want your photos

Did you know? A nice camera isn't any better than taking photos from your phone unless you learn how to use the camera properly. Your cell phone camera CAN take amazing photos and WILL once you understand what settings to use, and when.

Lighting – is it bright enough? Use portrait mode (if available) to create depth-of-field. DON'T use filters. DO use natural light.

Interesting – does it tell a story? Submit photos that capture what you or friends are doing. Posed are GOOD, candid are BEST!

Turn up your settings? Yes! Use the rule of thirds. Turn your grid on. DON'T submit out of focus images. DO put your subject where they intersect.

Ready? Submit via the Yearbook Snap App!

1. Download **Yearbook SNAP!** Search for **Stanwood High School** & Enter **Spartans** (case sensitive)
2. Select the **category** that matches and pick your photos ***not from social media, quality is too low*
3. Enter the **names** of the **students** in the photos in the notes and what they are doing
4. Enter your **info** and you're done! **Thank you** for submitting!

Your Photos.
Your School.
Your Yearbook.

It's a snap.

OR Submit to Yearbook Snap on a computer

1. Visit **YearbookForever.com** and search for **Stanwood High School**
2. Enter the code: **Spartans** (case sensitive) & select your images and category ***not from social media, quality is too low*
3. In the **notes section**, and enter the names of the students in the photos and what they are doing
4. Enter **your** information, then **submit!**

***SEND IN ORIGINAL photos** that are taken by you, and not downloaded from social media
